

Management tool

Version 6 of the Bodyshop Manager and Business Manager tools, developed by EMA Computer Solutions (EMACS), is now available. Both tools aim to simplify the control and management aspects of body shops by automating otherwise time-consuming administrative tasks. Bodyshop Manager features

30 status panels that display all key information including 'jobs awaiting invoicing', 'jobs due out today' and 'parts still to order'.

A shared site diary provides a view of the current and scheduled activities of all staff. There is also an internal messaging system.
